## Remedial and English as a Second Language classroom

Our Christ-centered  
nursery and primary  
school

+ vulnerable children  
lagging behind  
academically

+ special needs  
children

= one of a kind  
remedial and ESL  
classroom in Gulu,  
Uganda!

# REMEDIAL CLASSES

## ACTION Uganda's Jesus is the Truth nursery and primary school 2015

In response to the very evident need for remedial classes, we opened a remedial classroom this month – one of a kind in northern Uganda. Our new special education aides have risen to the occasion as we assess pupils, make individualized plans for each child, and provide one-on-one assistance to some of our more intensive needs children, including several of our Home of Love children's home children. Head Teacher Mariana is teaching English as a Second Language and phonics – the cornerstones of education. Dr. Abby is training the team of Ugandan special education aides to teach remedial math. It is exciting to see the children thriving as we find different ways to teach different types of learners!
